SPRING 2018

CONSIDERING THE RESURRECTION OF JESUS

How did the disciples of Jesus experience his resurrection? How did they understand its significance? Every writing in the NT presupposes and expresses in various ways the belief in the resurrection of Jesus. How did this NT resurrection faith evolve? How has it been expressed throughout Christian history in visual images?

This series explores these questions and the question of the significance of belief in Jesus’ resurrection for our time and place.
